Cavite State University

2022-2024

Undergraduate

Experience

Online Booking Reservation System

2nd year

- Designed and implemented a fully functional reservation system using HTML, CSS, and PHP, allowing users to easily book appointments and manage reservations online.
- Created an intuitive user interface for the reservation system, ensuring a seamless user experience through responsive design and efficient navigation.
- Integrated a MySQL database with the reservation system to store user data and reservation details, enhancing data management and retrieval processes.
